### **About Myself**

My name is Kranthi. The name itself gives me more energy and always reminds me to bring some 'kanthi' in everyone's life. I came from family who are long time supporters of Communist party. I've grown up seeing great leaders on my home wall like P Sundariah, Jyothi basu, Bhagat Singh, Aazad, Karl Marks, Lenin, Stalin, Kastro and Che. They always inspire me to be a good person.

When I worked in AP State secretariat to co-ordinate JKC program, I saw how our system works. But when I came to USA and starting finding the differences, I realized the need for honest people in politics. That's why I want to take a step forward to join politics and also to motivate and bring lot of good people into the system.

- Very patient and mix of matured and dynamic attitude.

### **My Objectives**

- To bring change in the way people think about politics by involving directly in politics and also other common people who wants to serve for their country through politics.
- To bring transparency in the system.
- To promote Telugu culture and literature.

### **I want to**

- Be very honest in politics.
- Stay in politics for short term and give opportunity for others.
- Bring so many good people in to the system and change the political atmosphere.
- See politics as a profession where one should see it as a place to work and allow someone else interested to serve. It should not be a moneymaking or a family owned business.
